Parkinova

MRI Analysis Report

Analysis Information

Analysis ID	11b5fc43-589f-405b-91ac-173bc80902a8
Patient Code	
Timestamp	2026-10-25T16:40:48.152353+00:00

Model Information

Model Name	N/A
Version	N/A
Input Shape	N/A
Output Type	N/A

Preprocessing Details

Original Size	(142, 157)
Target Size	(244, 244)
Channels	3
Normalized	False
Dtype	float32
Mean Intensity	73.57
Warnings	[]

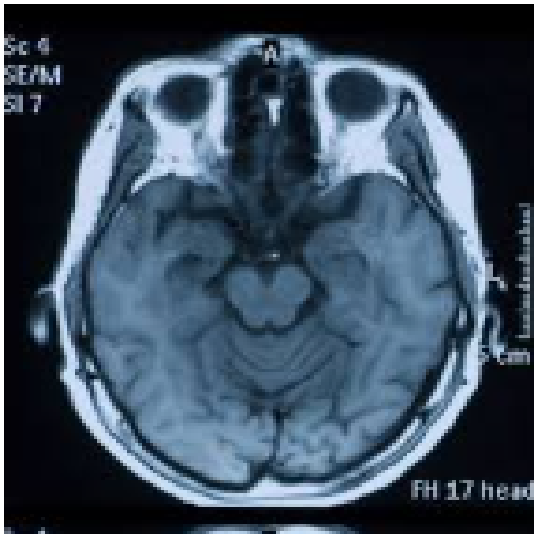

Analysis Results

Model Prediction	Parkinson's-related pattern detected
Evaluation Status	Completed

Findings & Pattern Analysis Explanation

The CNN deep learning model identified structural and intensity patterns in the MRI scan that correlate with Parkinson's disease neuroimaging features present in the training dataset. This is an automated experimental observation and must be evaluated alongside clinical motor assessments, patient history, and expert radiologist review.

MRI Image

Patient Symptom Assessment

Age	49
Gender	Male
Questions Answered	13 / 13
Assessment Date	2026-10-25T22:06:07

Symptom Responses

Symptom	Category	Response
Memory Difficulties	Cognitive	Rarely
Difficulty Concentrating	Cognitive	Sometimes
Problems with Decision-Making	Cognitive	Often
Changes in Mood	Emotional	Sometimes
Feelings of Anxiety	Emotional	Often
Symptoms of Depression	Emotional	Sometimes
Self-Reported Emotional Well-being	Emotional	Often
Sleep Disturbances	Sleep & Energy	Often
Mental Fatigue	Sleep & Energy	Often
Reduced Motivation	Sleep & Energy	Often
Difficulty with Daily Activities	Functional	Rarely
Changes in Thinking Speed	Functional	Never
Difficulty Planning & Organizing	Functional	Rarely

Note: These responses are self-reported and collected for research documentation purposes only. They do not constitute a clinical assessment.

Disclaimer

This application is an academic AI research prototype. Its output is generated by a machine-learning model and is not a medical diagnosis. The model's performance and reliability may vary depending on image quality, dataset characteristics, and the images used during training. Consult a qualified neurologist for medical evaluation.
