PARKINOVA

Medical Assessment Report

A. Patient & Assessment Information

Patient Reference	TEST-PT-DISAGREE
Age / Gender	Not specified / Not specified
Assessment Date	2026-10-31 14:23:32
Report Reference ID	TEST-DISAGREE-002
Completed Modules	Brain MRI Scan, Archimedean Spiral Analysis
Lead Evaluator	Dr. Researcher

B. Combined Assessment Summary

Analysis Component	Completion Status	Model Prediction
Brain MRI Scan	Completed	Parkinson's-related pattern detected
Spiral Drawing	Completed (Model Prediction)	Spiral drawing exhibits regular trajectory without distinctive Parkinsonian tremor pattern

Multi-Modal Synthesis: Concordant Findings (Parkinsonian Pattern Detected)

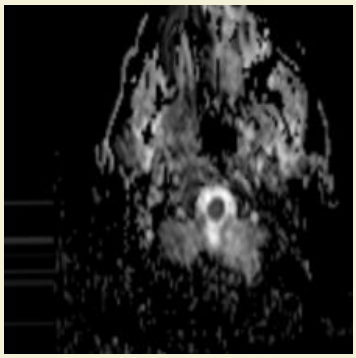
Both the MRI convolutional model and the Archimedean spiral drawing analysis identified distinctive features correlated with Parkinsonian disease patterns. Independent concordance across structural neuroimaging and fine-motor kinematics suggests that comprehensive clinical evaluation with a movement disorder specialist is warranted. This automated synthesis does not constitute a confirmed clinical diagnosis.

C. Patient Symptom & Cognitive Assessment Profile

Questionnaire Status	Not Submitted / Incomplete
Documentation Note	Self-reported cognitive, emotional, sleep, and functional assessment was not recorded.

Note: Comprehensive neurological assessment requires patient symptom history in addition to imaging.

D. Brain MRI Scan Analysis

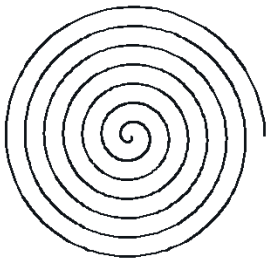


Analysis Status	Completed
Model Prediction	Parkinson's-related pattern detected
Model Architecture	Parkinson CNN (244x244x3)
Input Preprocessing	244x244 Lanczos Resizing, Channel Standardization
Image Source	sample_pd_1.jpg

Model Findings & Interpretation:

Structural intensity variations observed.

E. Archimedean Spiral Drawing Analysis



Analysis Status	Completed (Model Prediction)
Model Prediction	Spiral drawing exhibits regular trajectory without distinctive Parkinsonian tremor pattern
Model Architecture	Archimedean Spiral YOLO / CNN (244x244x3)
Geometry & Stroke	400 x 400 pixels | Standard
Drawing Source	sample_spiral_control.png

Visual & Kinematic Observations:

• **Image Geometry:** 400 x 400 pixels

Regulatory Notice & Academic Disclaimer

This application is an academic AI research prototype. Its output is generated by a machine-learning model and is not a medical diagnosis. The model's performance and reliability may vary depending on image quality, dataset characteristics, and the images used during training. Consult a qualified neurologist for medical evaluation.
